Michigan Supreme Court:

In regard to. The proposed Court Rule No. 2003-47. We far too people do not think it is right for you to deny our rights to a trial by jury.

You know that is one of our special rights and I don't think you should take that away from us. My husband has asbestos on his lung, it is not cancer yet but who knows when it will be.

Also, judges are not to make laws, rather they interpret them.

We have every right to a trial by jury! Make these big companies be responsible for what they make their workers work in and on.

Please, reconsider this Court Rule No 2003-4. & Let us have the right to a trial by jury.

Sincerely yours,
Janice D. Greener
